

Adult Extremity Tomogram

Diagnostic Radiology (Outpatient)

Welcome:

We would like to welcome you to OSF Saint Francis Medical Center Diagnostic Radiology Department.

You have been scheduled to have an Extremity Tomogram. This is a test using a special form of x-ray to image your extremity.

The information contained in this pamphlet will help you understand the test that has been scheduled.

When to Come, Where to Park, and Where to Go:

Please arrive 45 minutes before the time of your scheduled test.

What to Bring with You:

You may have had x-rays done at a hospital other than OSF Saint Francis Medical Center. Please bring copies of the films with you the day of the test. You may also request that the doctor's office send the films or results to us at the hospital before your test.

Prep:

None.

Jewelry:

Please remove all jewelry from area of interest before your test.

PREGANCY TESTING POLICY

It is the policy of OSF Saint Francis Medical Center to conduct pregnancy tests on female patients having a CT, MRI, Nuclear

Medicine, PET, Angiography, or X-ray exams of the abdomen area. This policy is to avoid potential harm to an unborn baby as a result of the radiation or medications given during the exam.

A pregnancy test is required prior to the procedures listed above and should be ordered by your physician if you are a female:

- Between the ages of 12 and 50 and have not had a hysterectomy
- Less than 12 years old and are having menstrual periods
- Over age 50 and having menstrual periods

The pregnancy test must be done within three days prior to your exam at any OSF Saint Francis facility. Home pregnancy tests are not acceptable.

If you have your pregnancy test done the day of the procedure:

- Arrive 30 minutes earlier if you are scheduled at any OSF Out Patient locations.
- Arrive 60 minutes earlier if you are scheduled at Saint Francis Medical Center main campus hospital

If you know that you are pregnant please notify your physician.

Medications:

You may take medication as prescribed.

Test Instructions:

You may be asked to wear a hospital gown during the procedure. A registered x-ray technologist will be doing the test under direct supervision of a radiologist. Your test will take about 60 minutes. You will lie on an x-ray table.

A registered x-ray technologist will take x-rays of your extremity at different levels. The films will be shown to the Radiologist and more films may be taken.

Test Results:

Your test will be read by a Radiologist (doctor specializing in medical imaging). The radiologist will give a report that will be typed and sent to your doctor. You can make plans with your ordering doctor on how to get your test results (such as follow-up doctor appointment, calling the doctor's office, etc.)

After Test Instructions:

None.
